FeeLens

See what a portfolio really costs. In minutes, with proof.

Briefing for Massimo · Safe Capital, Lugano · November 2026

Upload **Verify** **Compare**

Concept and working demo · synthetic client figures · real public bank documents

THE PROBLEM

More than a third of the cost never shows up as a debit

CHF 61'450

real yearly cost, at least

CHF 40'160

what the bank lists as charged

CHF 21'290 are fund costs taken inside the price. And Bank Beta's own fees are still unknown.

Where the costs sit

Fee advices	management, custody
Contracts and tariffs	rates, tiers, minimums
Trades and FX	commissions, FX margins
Fund prices	ongoing charges in NAV
Structured products	issuer margin
Insurance wrappers	policy charges

In orange: never visible as a debit.

WHAT FEELENS DOES

Three steps, a result you can prove

1 · Upload

Statements, cost reports and contracts from any bank: PDF, scans, Excel.

OUTPUT **Documents sorted by bank, type and period**

2 · Verify

Every cost is extracted with its page, checked against other documents and labelled.

OUTPUT **Cost ledger with source and status**

3 · Compare

Same holdings with Safe Capital and its custodian bank, switching costs included.

OUTPUT **One-page client report**

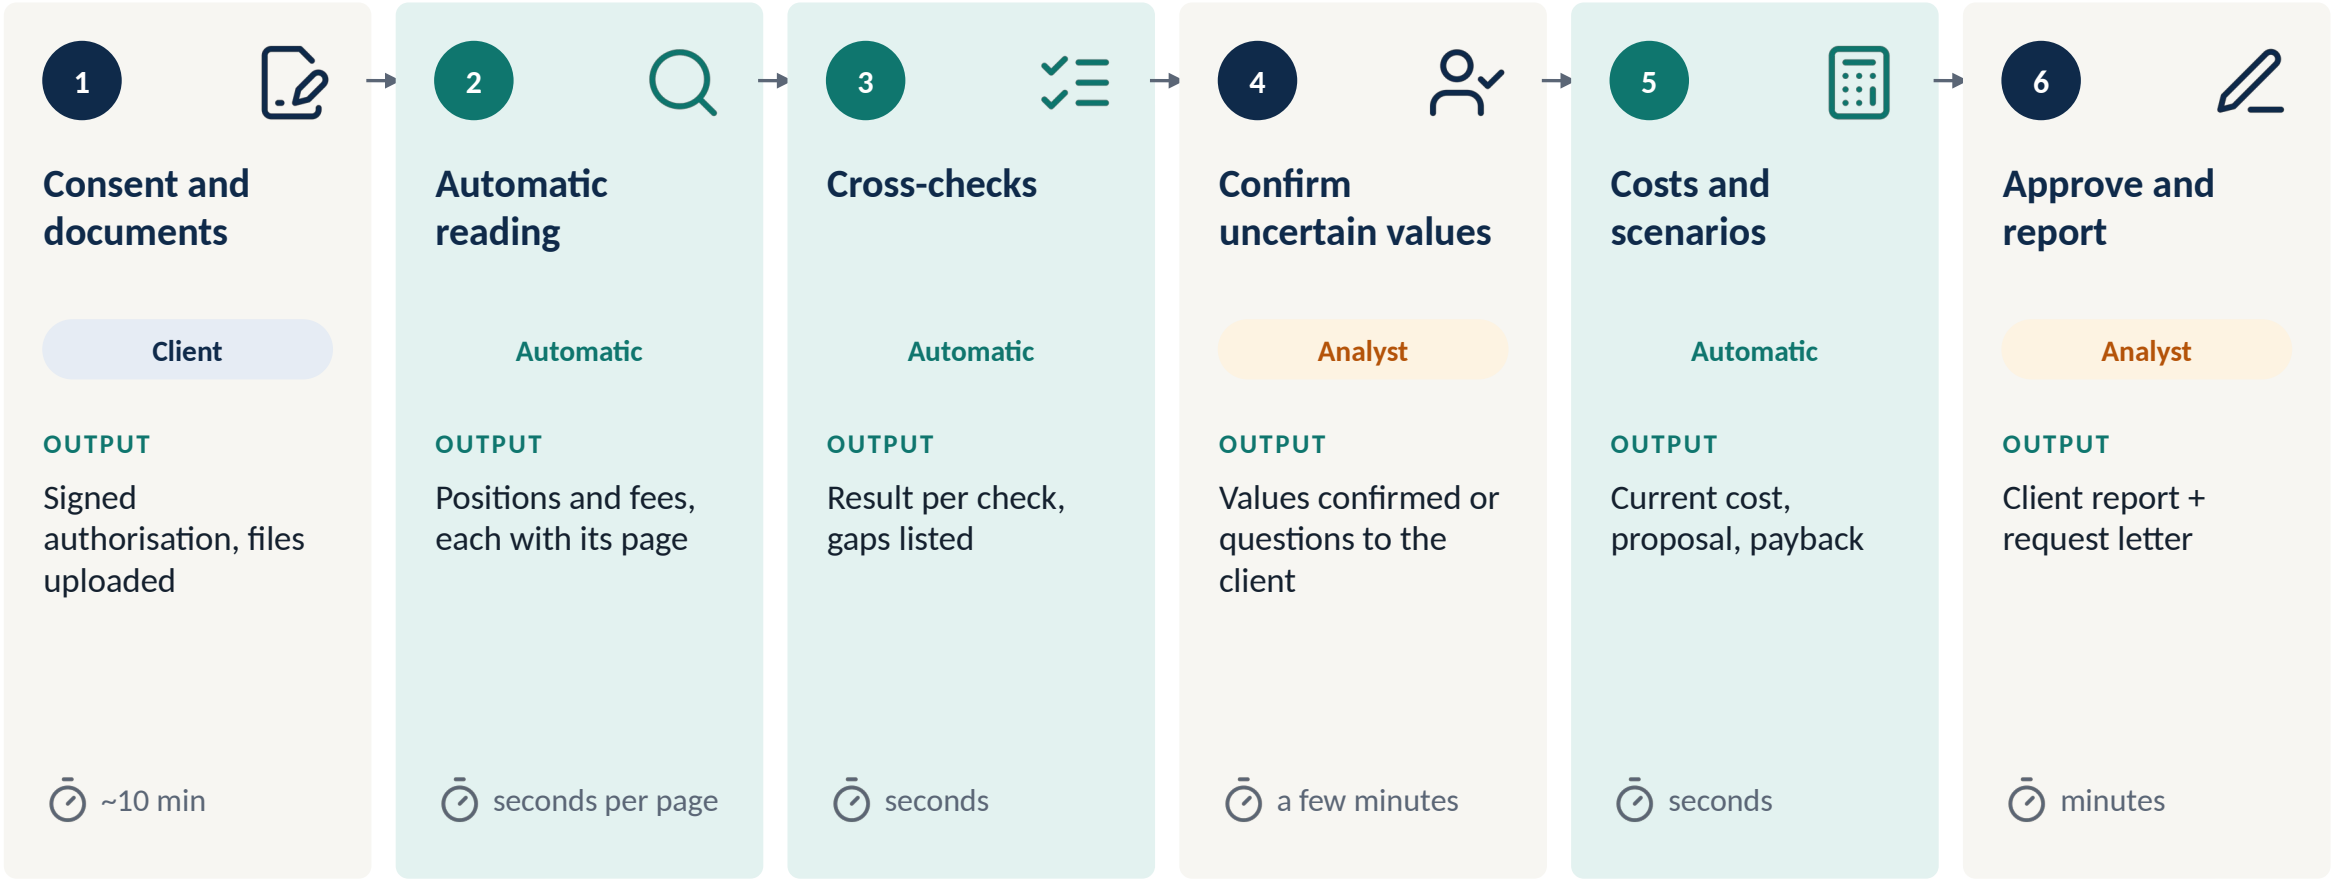

No source, no verified figure

Missing is never zero

No comparable service, no savings claim

THE PROCESS

Six steps: who does what, and what each step produces

Green: automatic. Grey: a person at the client or Safe Capital. Nothing reaches a client without approval. Times are design targets, to be measured in the pilot.

REQUIREMENTS

What is needed to start

From the client, per case

- Statement of assets per bank
- Annual cost report, or 12 months of fee advices
- Mandate contract, if any
- Signed consent

From Safe Capital, once

- Advisory or management tariff
- Partner custodian bank and its tariff
- Consent wording and retention period
- Who approves reports

Technical

- One secured office PC (pilot) or a Swiss server
- Named logins with two-factor
- No external AI on raw files
- Internet only to fetch public KIDs

Banks' mandate fees (UBS, Julius Baer) are not public: they only come from the client's contract.

THE SOURCES

What banks publish, and what only the client has

Julius Bär · Zürcher Kantonalbank · RAIFFEISEN · iShares by BlackRock

Public documents used

DOCUMENT	PUBLIC?	WHAT WE FOUND	WHERE FEELENS GETS IT
Bank price list	Yes	Julius Baer Europe, ZKB, Raiffeisen Locarno. UBS publishes one but blocks automated download	Bank website; date and entity checked
Fund KID	Yes	Every share class, e.g. iShares Core MSCI World	Official source, by ISIN
Mandate fee	No	Julius Baer: “not part of this document”; UBS Manage: no rates	Client's contract or fee advices
Statement of assets	No	No public specimen from UBS or Julius Baer	The client
Annual cost report	On request	UBS: cost details “on request” from the advisor	Letter to the bank drafted by FeeLens

Logos are reproduced from the public documents only to identify their source; no partnership or endorsement is implied.

Julius Baer: from price list to data, field by field

Julius Bär

Schedule of prices and services, banking and custody

An official KID: the fund's costs in five fields

iShares by BlackRock

iShares Core MSCI World UCITS ETF · Basisinformationsblatt

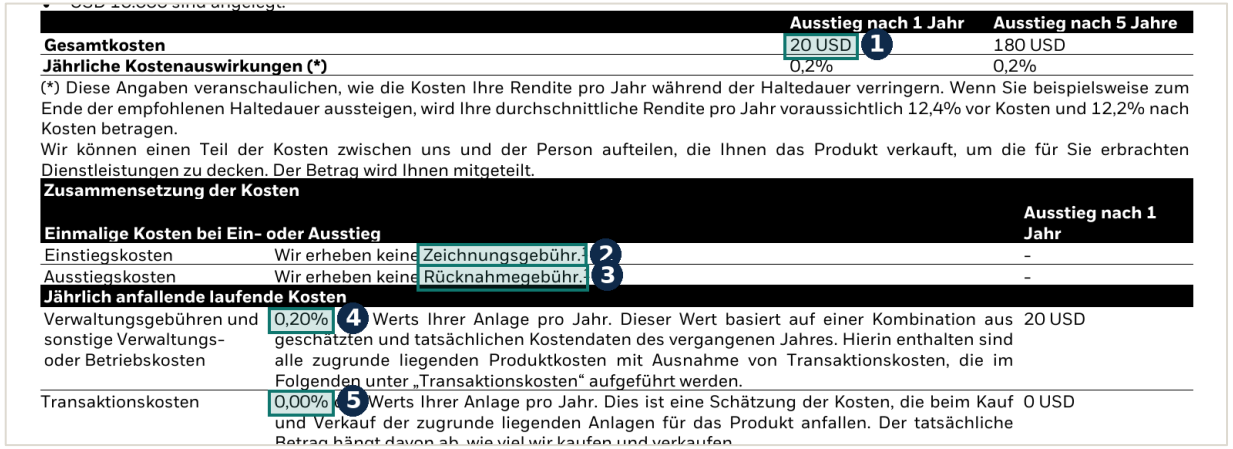

BlackRock Asset Management Ireland · IE00B4L5Y983 · USD Acc · 3 September 2026 · German · page 3 of 3

How it is used

Estimated cost = ongoing costs × position value

Example: CHF 500'000 × 0.20% = CHF 1'000 a year, labelled “Estimated”.

ORIGINAL PAGE, ZOOMED IN

	Ausstieg nach 1 Jahr	Ausstieg nach 5 Jahre
Gesamtkosten	20 USD (1)	180 USD
Jährliche Kostenauswirkungen (*)	0,2%	0,2%

(*) Diese Angaben veranschaulichen, wie die Kosten Ihre Rendite pro Jahr während der Haltedauer verringern. Wenn Sie beispielsweise zum Ende der empfohlenen Haltedauer aussteigen, wird Ihre durchschnittliche Rendite pro Jahr voraussichtlich 12,4% vor Kosten und 12,2% nach Kosten betragen.

Wir können einen Teil der Kosten zwischen uns und der Person aufteilen, die Ihnen das Produkt verkauft, um die für Sie erbrachten Dienstleistungen zu decken. Der Betrag wird Ihnen mitgeteilt.

Zusammensetzung der Kosten		
Einmalige Kosten bei Ein- oder Ausstieg		**Ausstieg nach 1 Jahr**
Einstiegskosten	Wir erheben keine Zeichnungsgebühr. (2)	-
Ausstiegskosten	Wir erheben keine Rücknahmegebühr. (3)	-
Jährlich anfallende laufende Kosten		
Verwaltungsgebühren und sonstige Verwaltungs- oder Betriebskosten	0,20% (4) des Werts Ihrer Anlage pro Jahr. Dieser Wert basiert auf einer Kombination aus geschätzten und tatsächlichen Kostendaten des vergangenen Jahres. Hierin enthalten sind alle zugrunde liegenden Produktkosten mit Ausnahme von Transaktionskosten, die im Folgenden unter „Transaktionskosten“ aufgeführt werden.	20 USD
Transaktionskosten	0,00% (5) des Werts Ihrer Anlage pro Jahr. Dies ist eine Schätzung der Kosten, die beim Kauf und Verkauf der zugrunde liegenden Anlagen für das Produkt anfallen. Der tatsächliche Betrag hängt davon ab, wie viel wir kaufen und verkaufen.	0 USD

RAIFFEISEN

Dienstleistungspreise Anlegen · from 1 January 2025 · German

Depotgebühren

Kategorie	Wertschriftendepot
Grundgebühr pro Jahr	0.25 %
Minimum pro Quartal / pro Position	CHF 12.50 / CHF 1.25

1 Securities account, base fee **0.25% p.a.** p.2

2 Minimum per quarter **CHF 12.50** p.2

Example: CHF 1m of foreign securities at ZKB = CHF 4'000 a year in custody alone, plus VAT for Swiss-domiciled clients.

DATA

Every extracted value becomes one of five kinds of data

Positions

ISIN and class

Quantity, price, value

Currency, date

Fees charged

Type and period

Base and rate

Amount, VAT

Contract terms

Rates and tiers

Minimums

Entity and validity

Product costs

Ongoing costs

Transaction costs

KID date

Evidence

File and page

Box on the page

Who confirmed it

EVERY COST HAS A STATUS

Observed | Contractual | Estimated | Not a paid cost | Not determined

The first three count in the total. “Not determined” is never zero: that is why savings are always “at least”.

RECONCILIATION

Before trusting a number, documents are checked against each other

Do the numbers add up?

- Pass — Alpha positions = printed total, 3'200'000
- Pass — Beta positions = printed total, 1'100'000
- Pass — All valued on 30.09.2026

Billed = agreed?

- Pass — Advisory = 3.2m × 0.80%
- Pass — Custody = 3.0m × 0.20%
- Pass — Quarterly debits × 4 = annual report, counted once

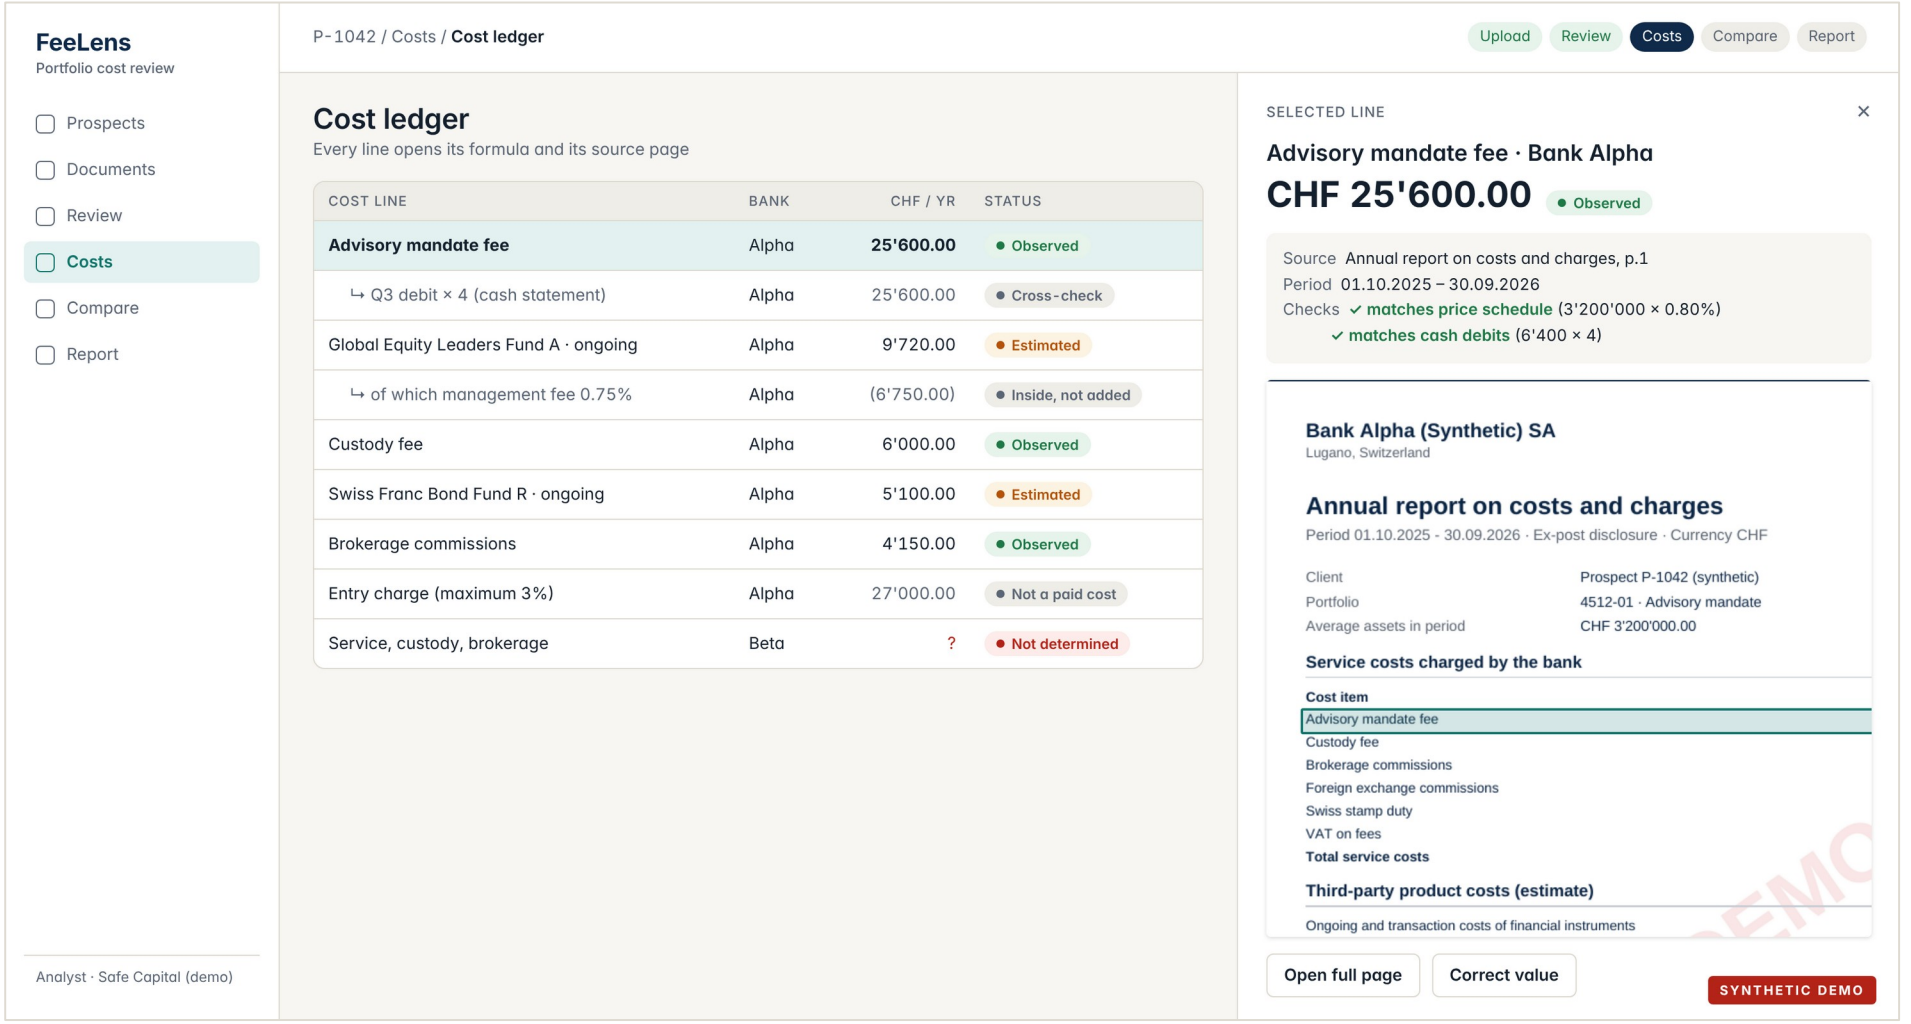

Is the source valid for this client?

- Rejected — Tariff of a Luxembourg entity for a Swiss account: rejected
- Pass — KID costs within 2.6% of the bank's estimate
- Note — Retrocessions CHF 3'900: already in fund costs, not added

Mismatches stay visible to the analyst: never forced to agree. Figures from synthetic prospect P-1042.

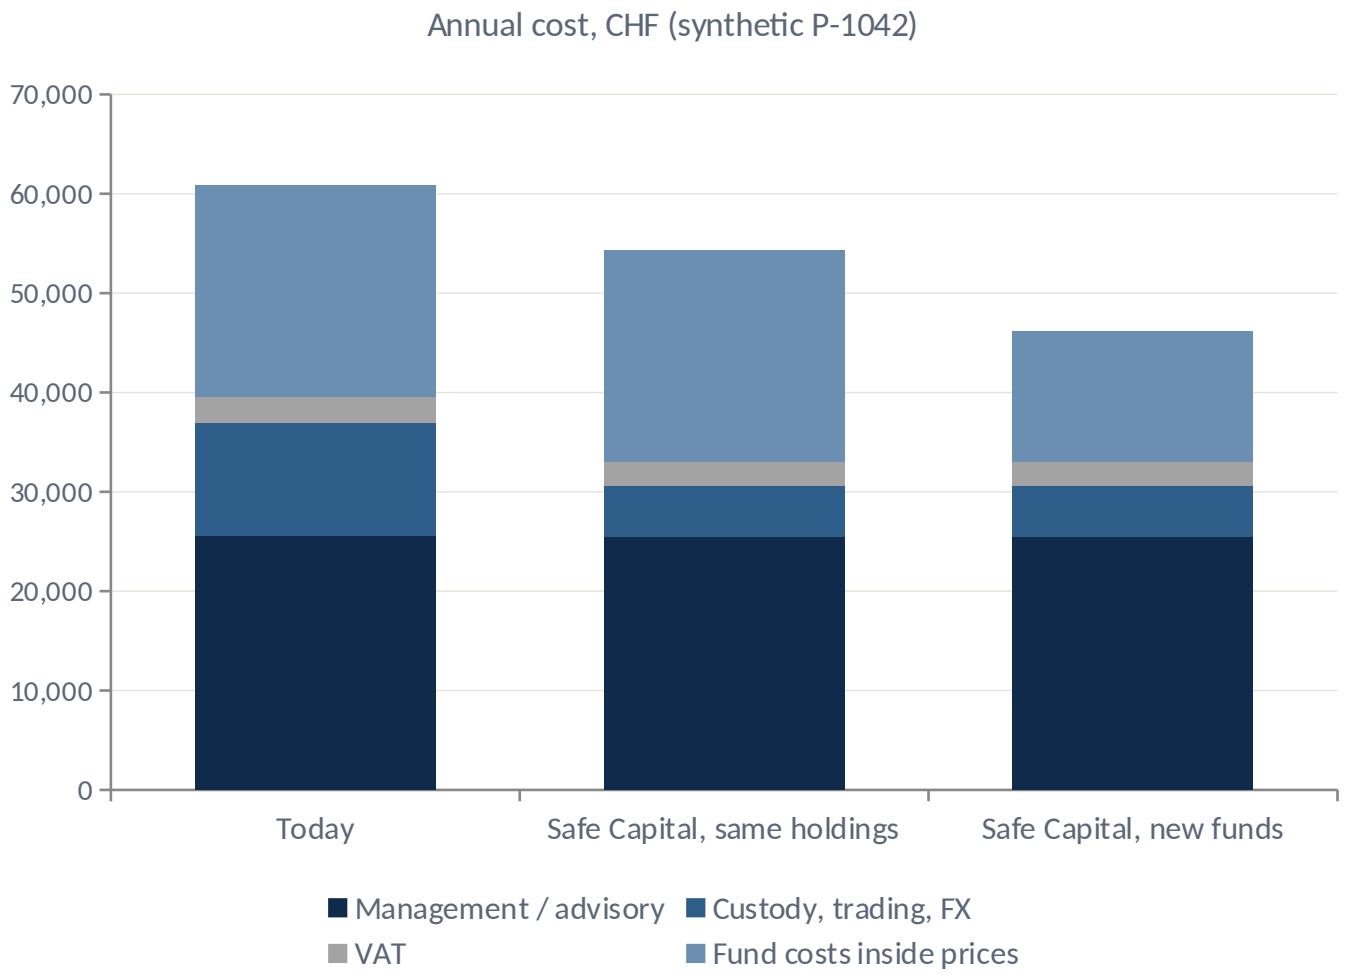

THE SCREEN

Every number opens up: formula, checks and source page

THE RESULT

Same holdings, every Safe Capital cost included

AT LEAST

CHF 6'520

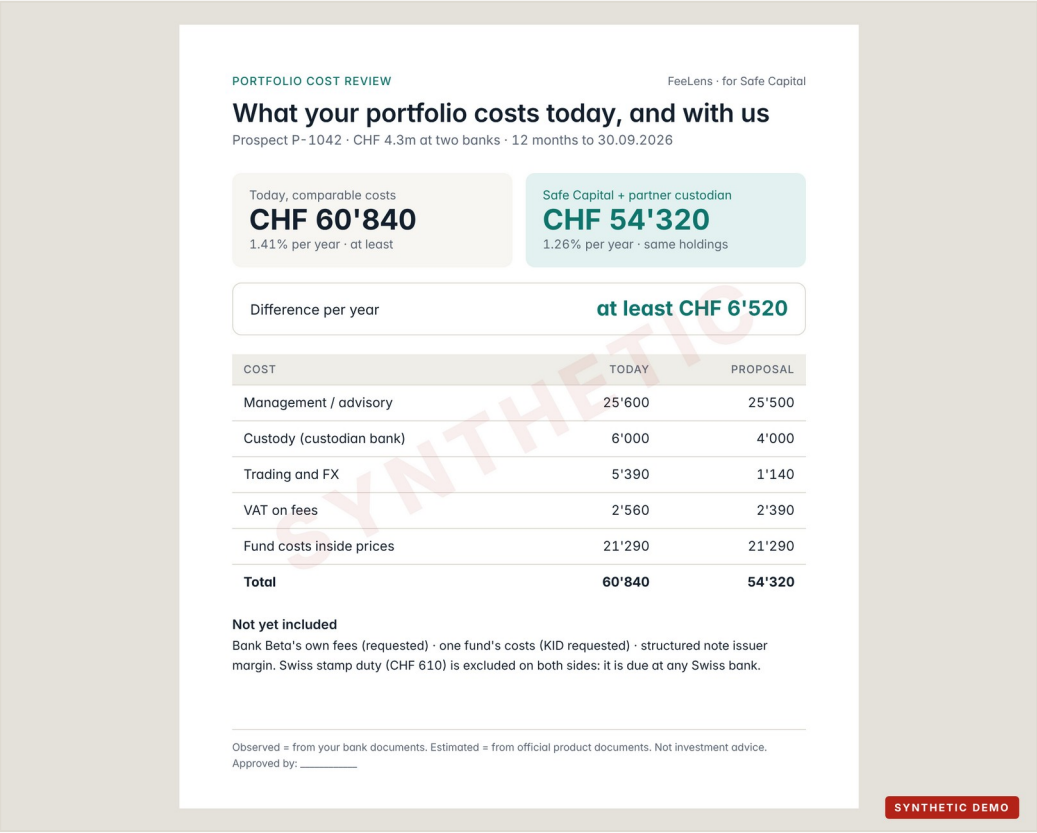

less per year, same holdings

Switching cost paid back in	**2.8 months**
Today	**CHF 60'840 · 1.41%**
With Safe Capital	**CHF 54'320 · 1.26%**

- "At least": Bank Beta's own fees are still unknown.
- Swiss stamp duty (CHF 610) left out on both sides.
- New funds: shown apart, not a fee saving.

THE OUTPUTS

What you get at the end of every analysis

PORTFOLIO COST REVIEW

FeeLens · for Safe Capital

What your portfolio costs today, and with us

Prospect P-1042 · CHF 4.3m at two banks · 12 months to 30.09.2026

Today, comparable costs
CHF 60'840
1.41% per year · at least

Safe Capital + partner custodian
CHF 54'320
1.26% per year · same holdings

Difference per year — **at least CHF 6'520**

COST	TODAY	PROPOSAL
Management / advisory	25'600	25'500
Custody (custodian bank)	6'000	4'000
Trading and FX	5'390	1'140
VAT on fees	2'560	2'390
Fund costs inside prices	21'290	21'290
Total	**60'840**	**54'320**

Not yet included
Bank Beta's own fees (requested) · one fund's costs (KID requested) · structured note issuer margin. Swiss stamp duty (CHF 610) is excluded on both sides: it is due at any Swiss bank.

Observed = from your bank documents. Estimated = from official product documents. Not investment advice.
Approved by: _____

SYNTHETIC

SYNTHETIC DEMO

Client report

One page in the client's language: today vs Safe Capital, line by line, what is missing.

Request letter to the bank

Lists the missing documents and why they matter, ready to sign.

Cost ledger with sources

Every line with document, page, status and checks passed.

Internal view (staff only)

Safe Capital's margin on the prospect: never in client material.

DATA AND PRIVACY

Runs on Safe Capital's own infrastructure; files stay confidential

In the office

Recommended for the pilot

Swiss private hosting

Option for production

External AI services

Off by default

- **Client consent**
- **Only what is needed**
- **Encrypted**
- **Named, logged access**
- **No public AI on files**
- **Deleted on schedule**

The only thing that goes online: public ISIN codes, to fetch KIDs. No names, no amounts.

The revised Swiss FADP applies (in force since 1 September 2023). Banking secrecy and outsourcing rules to be checked by Safe Capital's counsel; this is not legal advice.

THE PLAN

A pilot on real cases before production

NOW

Demo

Working engine on synthetic documents and real price lists

PHASE 1

Pilot

1–3 anonymised real cases; measure accuracy and time

PHASE 2

Harden

More bank layouts, security review, logins

PHASE 3

Production

Live at Safe Capital after compliance sign-off

Durations are set after the pilot, once we know how many bank layouts Safe Capital's prospects bring.

NEXT STEP

Let's run the pilot on one real case

WE NEED

One anonymised real case

Statements, 12 months of fees, the contract

Safe Capital's tariffs

Fee and partner custodian

Two confirmations

Where it runs (office or Swiss) and consent wording

IN RETURN **the FeeLens report for that case: every cost with its source, and the comparison with Safe Capital.**

No source, no verified figure · Missing is never zero · No comparable service, no savings claim

What the client brings and what each document proves

DOCUMENT	WHAT WE READ	PROVES	CANNOT PROVE	NEED
Statement of assets	ISIN, quantity, price, value, currency, date, total	Holdings at a date	Fees	Essential
Annual cost report	Service costs, product costs, third-party payments	Near-complete annual cost	FX margins not listed	Essential
Fee advices	Type, period, base, rate, amount, VAT	Every debit	Costs inside products	Essential*
Contract / price list	Rates, tiers, minimums, scope, entity	What was agreed	What was billed	Helpful
Trade confirmations	Commission, third-party, stamp duty, FX rate	Trading costs	Contract terms	Helpful
Fund KID	Ongoing, transaction, entry/exit costs	Cost rates	What the client paid	Fetched
Retrocessions	Payments from providers, refunded or kept	Conflicts, refunds	Direct cost	Ask bank

* or the cost report. Formats: PDF, scans, photos, Excel, CSV. Italian, German, French, English.

The ten cost layers

	LAYER	WHAT	VISIBLE AS
L1	**Service**	Management, advisory, all-in, EAM fee	Debit
L2	**Custody and account**	Safekeeping (tiers, minimums), account fees	Debit
L3	**Trading**	Brokerage, ticket, third-party, FX commission	In net amount
L4	**Funds and ETFs**	Ongoing, transaction, performance, entry/exit	Inside NAV
L5	**Structured products**	Issuer margin, distribution	Inside price
L6	**Implicit execution**	FX margin, bid/ask spread	Inside rate
L7	**Insurance wrapper**	Policy charges	Partly
L8	**Financing**	Lombard interest	Debit
L9	**Taxes**	VAT (by domicile), stamp duty	Debit
L10	**One-off / switching**	Transfer per position, exit, sale	Once

AI suggests; code checks it against the page text

No arithmetic by AI: deterministic sums

Every correction records who, when and why

Words used

KID

Official cost sheet for each fund share class.

Retrocession

Payment from a product provider to the bank or manager.

EAM

External asset manager, like Safe Capital.

Like for like

Same holdings, same service: only fees differ.

Ongoing charges (TER/OCF)

Yearly fund costs, taken from the price. Include the management fee.

Custodian bank

The bank holding the assets. With an external manager the client pays both.

bps

Basis points: 100 bps = 1% a year.

Stamp duty

Federal tax on trades, due at any Swiss bank.
